Through your Oval Account, you are able to self-select and invest in a number of Platform Products that are available to our Customers. Please see our blog for more information about the Platform Products and how we have selected them. Please note, however, that we and the RTO Agent do not provide financial advice to our clients and we will never make recommendations based on your personal circumstances.

If you are not sure whether the Oval Account, the Oval Services, or the Platform Products are suitable for you then we strongly recommend that you seek advice from a qualified financial adviser.

Prior to making any decision to invest you must read the relevant documentation such as the “Key Investor Information Document” or “KIID”, the Final Terms and the Costs and Charges relating to the relevant Platform Product. Documents such as the KIID contain important information of which you should be aware. You can access the documents via the App. You can also refer to the relevant Product Issuer’s website for relevant documentation.

We will not provide nor be responsible for providing you with any financial, legal or tax advice.

requirements have been met if this is later. As part of this process you will be required to complete an Appropriateness Assessment. We and the RTO Agent reserve the right at our absolute discretion to refuse your application to purchase a Platform Product without providing any reason for our decision.

4. Initial Investment amount

When you choose to purchase a new Platform Product you must initially commit the minimum amount required. This amount must be in your Cash Account or you can set up a money transfer as explained in App, and the amount you want to invest will be moved to the Issuer Account immediately.

5. Reception & transmission of orders policy (« RTO Policy »)

We are committed to treating you fairly when we manage your Oval Account.

Oval or Oval Marketplace do not themselves execute order(s) or instruction(s) to trade received by Customers, but transmits such order(s) or decision(s) to the Product Issuer which then executes such orders itself and/or places them with other entities for execution. As we do not 'execute' any transactions, so we are not required to meet the 'best execution' requirements – we do not actually undertake the transactions themselves, but pass them on to the Product Issuer, who undertakes the transactions. It is your responsibility to check the 'best execution' policy of your chosen Product Issuer.

From time to time, alternatively we can act as sub agents of the RTO Agent, which will act in its capacity of reception and transmission of orders. In this case we will retain our relationship with you providing the Oval Services as usual.

As a receiver and transmitter of Customers' orders, Oval, Oval Marketplace or the RTO Agent will satisfy its obligation to act in the best interests of the Customer when:

- it receives and transmits orders for execution to Product Issuers and is in a position to deliver the best possible result for the Customer.
- Oval draws to the attention of the Consumer that depending on the type of financial instruments, achieving the best possible result may be complex. In addition, in cases where the Consumer gives a specific instruction (indicating the process for execution of the instruction), Oval, Oval Marketplace or the RTO Agent will transmit the instruction in compliance with that instruction; and
- it monitors and reviews the execution quality of the Customer's orders and corrects any deficiencies.

Customers will be informed without delay of any material difficulty in executing a transaction as soon as Oval or Oval Marketplace will become aware of any issues. As a general rule, Product Issuers will execute orders quickly, efficiently and fairly, and executed orders shall promptly and accurately be recorded and allocated.

6. Investments Cost and Charges

We act at all times in accordance with all applicable laws on transparency and we can charge your Cash Account should we incur in costs and charges we have incurred as a result of one of the following events:

1. we become liable to pay any tax or levies imposed on your Platform Product(s) or on any contribution paid by you; or

2. we become liable to make any other payment to the any governmental agency in the countries we operate or any such self-regulatory organisation, to the extent directly or indirectly attributable to your Platform Product(s);

3. Upon your consent, we are acting on your behalf as a withholding agent in Italy.

If we omit to deduct all or part of any charges from your Cash Account, on the due date, we shall not subsequently be prevented from deducting such amounts or exercising any available remedy as a result of that omission.

In line with what is required by MiFID II, any fees for any part of the investment services will be outlined, in the App, before (*ex ante*) you enter into a transaction which may incur such fees. You will also have all the necessary documentation of the breakdown of the costs and charges you may incur should you choose to invest in any Oval product.

Equally you will be able to request your *ex-post* annual cost and charges statement which will be available by contacting support@ovalmoney.com, which shows the effective cost and charges you incurred in relation to your investments for the past fiscal year.

7. Mandate

Everytime you invest, before confirming your investment, you will be asked to tick the box **"I have read the KIID and the information provided on the product. I hereby give Oval Group the mandate to control my money for the purpose of this investment"**. By doing this you give Oval authority over controlling your money for the purpose of investing.

The mandate gives Oval Group the ability to control a Customer's assets or liabilities. The mandate will enable us to give instructions to the Product Issuers in relation to your money without the need for your further involvement.

8. Client categorization

We have categorised you as a Retail Client as defined by the MiFID II Directive. As such, you will benefit from the greatest level of protection available under the regulatory system.

9. Disinvestment

If you instruct us or the RTO Agent from time to time to disinvest any of your Platform Product(s) we will do so under the mandate issued to us when you selected the investment. We will continue to act upon other Orders that you provide to us (via the Oval Services). When we refund your money it will be an updated value of your investment according to the performance of the product at that moment, net of the fees and charges applied on the investment product. The money so calculated will be returned into your Cash Account.

10. Key Risks

Generally there are risks associated with investments.

The investments offered by our Product Issuer are subject to loss in value over time. There can be no assurance that any appreciation in the value of investments will occur.

Any investment places your capital at risk, therefore, the value of investments and the income (if any) derived from them may fall as well as rise in value and:

- You are not certain to make a profit
- You may make a loss
- You may lose your entire investment.

The past performance of your investments is not a guide to future performance. The performance of an investment is dependent on its strategy, the skills and expertise of those responsible for managing its investments, and the market(s) in which it invests.

Section 4 - Terms and conditions for payments

1. Making payments

You need enough money in your Cash Account to make payments, invest in the Platform Product and withdraw money. Some transactions that would take your balance below zero may be slow to visualise and still go through. If that happens, we'll let you know the amount you'll need to repay and you'll need to pay us back as soon as possible.

If your Cash Account is a payment account, you will be able to make commercial transactions by using Oval Pay. Alternatively, you can either send or receive a SEPA Bank transfer from and to you payment account through the App.

You can spend with your Oval Pay for free across the SEPA area.

You can decide to withdraw across the Euro Area for free by using the Oval Pay. Check out your limits in the App.

You can freeze your Pay Card directly in the App. If you do not have access to the App, you can freeze your card by calling the 800 005 005 (Italy) or +39 02 917 176 43 for all the other countries. The service is always available.
